About Intelligent Life Safety

Intelligent Life Safety Systems Ltd is a specialist distributor of innovative life safety products to the international markets throughout the world. The company, which is based in UK, offers most advanced technology in the fire detection, gas detection & security systems and has dealings with the industry leaders who have over 50 years of experience in the design and manufacture of life safety systems.

Our products are available through local business partners in the international markets. Helping our clients to protect life and property by supplying a wide range of fire detection, gas detection and security systems to locally selected Solution Providers / System Integrators. Using dedicated, trained and experienced personnel, our service is intended to be efficient and competitive.

Intelligent Life Safety is committed to building trusted and personal business partnerships by providing dedicated support to enhance our partner capabilities and expand our business.

Our partners apply a quality management system based on ISO 9001 standards. This certification confirms that Intelligent Life Safety consistently satisfies customers' expectations in terms of high quality and best service. Our products are approved to the latest and relevant industry standards to ensure the integrity of our systems and peace of mind to our customers.

Fire Detection and Alarm Systems

Intelligent Life Safety Systems Ltd supplies a wide range of Fire Detection and Alarm Systems that protects life and property, ideal for small to large scale buildings.

Designed and manufactured in the UK, the product range includes:

- Conventional Fire Detection and Alarm Systems
- Analogue Addressable Fire Detection and Alarm Systems
- Voice Alarm / Public Address Systems
- Emergency Lighting and Central Battery Systems

Our fully qualified and trained engineers offer technical support to our customers throughout the project life.

Products & Services

Gas Detection Systems

We offer a full and comprehensive range of Gas Detection products, setting the benchmark for the industry in terms of quality, functionality and ease of use. From low-cost, compliance equipment suited to a wide range of industrial settings to high-end, high-functionality devices, we have a solution suited to all types of applications and industries; from small boiler rooms right through to large petrochemical plants and oil refineries.

Our Gas Detection product range includes:

- Fixed Gas Detection Systems
- Fixed Toxic Gas Detection Systems
- Portable Gas Detection
- Flame Detection
- Gas detection for home

Products & Services

Intelligent Life Safety offers Security Systems designed and manufactured by leading global providers of access control, intruder detection, video surveillance and integrated security solutions for the commercial and residential markets.

We provide Security Systems which include:

- **Access Control Systems**

Our access control solutions range varies from single door access control and standalone web-hosted access control to integrated systems capable of managing thousands of doors and alarm monitoring points globally.

- **Intruder Detection Systems**

Our Intruder systems range from intruder alarms, control panels and motion sensors through to fully integrated intrusion and door control security installations. They include environmental protection and life safety devices, and perimeter protection products including glass break, seismic and shock sensors.

- **Video Surveillance Systems**

The reliability, integrity and dependability of our video systems ensure that you can meet all of your existing and future security challenges with complete confidence. Our solutions range from IP and analogue cameras and domes, and digital and network video recorders, through to intelligent video analytics and sophisticated video management systems. Our cameras provide exceptional image clarity and definition whilst our video systems allow easy migration from analogue to IP-based technology.

Products & Services

Fire Detection and Alarm Systems

At Intelligent Life Safety, we provide our clients with high quality, cost-effective doors for a variety of applications. With expert knowledge of the industry we provide an excellent quality of product, whilst still maintaining competitive pricing. Our doors are designed and manufactured in the UK to highest quality standards.

Our Door Range includes:

- **Steel Doors**

Our steel door range varies from doors suitable for industrial personnel steel doors to contemporary stainless steel door and is suitable for internal or external purposes where a visually striking appearance is required. The steel doors are also suitable as blast doors, acoustic doors and fire doors, depending on specification.

- **Glass Doors**

Our contemporary glass door range is suitable for a variety of purposes and is custom built according to your requirements. Doorsets are available as 90 minute glazed fire doors depending on specification. Frameless glass doors provide a classic minimalist solution for public entrances and internal doorways.

- **Fire Doors**

Our fire doors have been tested to BS 476 or BS EN 1634-1: 2008 and have achieved ratings of up to 4 hours depending on specification. Our steel fire door range is available as 1, 2, 3 and 4 hour fire rated doorsets, integrity only, in many configurations. Our glass fire door range is fire rated at up to 180 minutes integrity only, or 90 minutes integrity and insulation, depending on specifications.
